

SAMSUNG

Galaxy S7

The new **Galaxy S7**

Big on screen and small on profile, the Samsung Galaxy S7 is the smartphone your life can't do without.

Slim in a big way.

Featuring a Quad HD Super AMOLED display, the Galaxy S7 has an eye-popping picture you'd expect from Samsung. And, just as impressive, the big screen fits on an incredibly slim design. Fully immerse yourself in movies, games and more.

Because water happens.

The Galaxy S7 is IP68-rated, which means it can repel spills, splashes and even dunks.¹ Just wipe off your phone and keep going.

Post-worthy day or night.

The first smartphone with dual-pixel technology features faster autofocus,² so you can say goodbye to blurry photos. And the new advanced camera sensor catches every detail, even in low-light.

More power. More play.

Stop waiting around for your phone to charge. With fast wireless charging,³ the Galaxy S7 powers up from 0 to 100% in no time. And with our biggest battery,² the ultra-slim Galaxy S7 gives you the power to keep going.

It's your stuff. Keep it.

If the built-in 32GB⁴ isn't enough, then expand your memory up to 200GB with a microSD card⁵ and have all the photos and 4K videos you want in your hands.

No touch notifications.

With Always On Display, time, calendars and notifications are ready when you are, without having to wake your screen. Now checking your phone is as easy as looking at it.

Pay almost anywhere with your phone.

Just about anywhere you can swipe or tap your card you can use Samsung Pay on your device to make your purchase.⁶ It's highly secure and easy to use with the Galaxy S7.
