

**SAMSUNG**

Introducing the

# Galaxy S9

**The Camera. Reimagined.**

## Radical 960 FPS Super Slow-mo.

The Samsung Galaxy S9 captures 4x as many frames per second,<sup>1</sup> so you can slow down reality and enjoy every frame.

## Brilliant in the dark.

Our Dual Aperture  $f/2.4$ - $f/1.5$  lens adjusts to let more light in when needed, allowing you to capture the right amount of light, day or night.<sup>2</sup>

## The emoji that's actually you.

With Augmented Reality, you can create an emoji library from just one picture. Personalize messages to your friends with emojis that look just like you.

## Translate the world around you.

With the Galaxy S9 Camera and Bixby Translate, simply point your camera at text to see it translated into a language you understand.<sup>3</sup>
